06/2023 09/2023 Nashik, Maharashtra, India

Jr. Frontend Developer Focused on designing user-friendly interfaces and improving website performance through modern frontend technologies.

Subject-Matter Expert (Kiwi.com Process)

WNS

01/2023 06/2023 Nashik, Maharashtra, India

Subject-Matter Expert Led a team of customer service representatives, provided mentorship, and developed training programs, enhancing the team's efficiency and service quality in the travel industry.

- Led and mentored a team of customer service representatives
- Improved compliance rate by 15% by enforcing company policies and industry regulations
- Collaborated with cross-functional teams to enhance service quality and efficiency
- Developed training materials and conducted workshops to improve team performance

SUMMARY

I am a **web developer** skilled in **JavaScript, React, Angular, and Python**, with experience in building high-performance, scalable web applications. As the founder of Sharan Digital Solution, I have led projects involving **HTML5, CSS3, Node.js, MongoDB, and RESTful APIs**, focusing on delivering robust and user-friendly solutions. I am also proficient in **TypeScript, Redux, and Cloud technologies**, continuously exploring **DevOps** practices to enhance development workflows. Additionally, I have experience with **Express.js, MySQL, and Git**, which enables smooth collaboration and efficient project management. My passion for **UI/UX design** drives me to create responsive, user-centric applications, while my dedication to continuous learning ensures I stay up to date with the latest trends in **web development** and **cloud infrastructure**. My diverse skill set allows me to build full-stack solutions that are both efficient and scalable, and I am always eager to apply my expertise to new and challenging projects.
